Summary

As an experienced Full Stack Developer, I have expertise in developing websites and web applications. My specialization in JavaScript, along with my professional experience in Node.js and Vue.js, enables me to deliver high-quality work. Moreover, I am well-versed in PHP, Laravel, Nuxt.js, MongoDB, and MySQL. I have a keen interest in exploring Blockchain technology and innovations.

Work Experience

Nott App

Remote

Co-Founder & Full Stack Developer

2023-Present

- Spearheaded the conceptualization, development, and management of Nott App.
- Architected the comprehensive technical framework of Nott App, leveraging Nuxt.js for frontend, Node.js for backend, and an array of technologies including Socket.io, AWS, MySQL, Sequelize, Firebase, and Redis.
- Successfully handled the submission processes for both Apple Store and Google Play Store.
- Developed a responsive web and mobile application, as well as a landing page.
- Implemented features such as uploading notes, adding friends, chat functionality, invite and reference system, commenting, and in-app purchases.
- The creation of the Nott App Admin Panel facilitated swift resolution of user issues through integrated features such as user feedback handling, ticket management, note uploading, in-app purchases, and a reference system.
- Implemented iterative improvements based on user feedback, resulting in increased user engagement and satisfaction.

Lemoon Games

Sarıyer,TR

Full Stack Developer

2021-2023

- Developed frontend using Vue.js and Nuxt.js, and backend utilizing PHP Laravel, Node.js, MySQL, and MongoDB.
- Designed and implemented two admin panels for Hexa Network and Ms.Astro projects.
- Implemented detailed user analytics with charts, showcasing daily earnings, user counts, and transaction details.
- Enabled administration features like responding to messages, creating in-app gifts, and posting news.
- Implemented iterative enhancements to admin panels driven by user feedback, leading to expedited error resolution and heightened user satisfaction levels.
